

Dairy - Winter Cakes

ECV winter cake range is formulated to balance home produced forage and supplementary buffer feed. All ECV cakes contain quality raw materials throughout along with an excellent mineral and trace element package.

As standard we include bioplex minerals, 150iu/kg of Vitamin E, Biotin and Vitamin B12. For further information on specific cakes see the information below or the links on the right.

Custom Blends

Dairy cows need diets formulated to match their needs. ECV custom blends are formulated using FiM technology, this ensures optimum use of your forage and home produced concentrates. Made at our two blending plants at Broadwood they reduce your costs for handling and storage and optimise herd health, fertility and yield .

XL 22

If you need the highest energy density in a dairy cake then XL22 is the cake for you. Contains very high levels of hi pro soya, Amino Green and Megalac®.

Hallmark Gold

Very high fermentable energy and quality protein singles out Hallmark gold from the opposition. Contains quality ingredients including a high inclusion of soya with Megalac® and Amino Green.

Dairy Lac 20

Our high beet pulp 20% cake, low cereal inclusion. Designed to boost butterfat production. Contains Megalac®.

Summelac 18

High beet pulp inclusion, 18% protein, low cereal inclusion. Designed to boost butterfat.

Forage Master 22

High energy 22% protein cake with wheat and hi pro soya.

Herd Master 20

High energy 20% protein cake with wheat and hi pro soya.

Meadow Master

Our best selling dairy cake. High energy and 18% protein.

Grass Balancer 18

18% protein, delivers quality nutrition.

Premier 19

Very high fermentable energy and hi pro soya for quality protein. Packed with nutrition for high performing cows.

VFM 16%

VFM 16 is a highly palatable dairy cake for grazing cows. It is formulated to complement good grazing, it contains energy from sources, which complement grass, and the magnesium necessary to combat staggers. For further information on these dairy feeds click onto the menu on the right.
