Analysis

Oil	Protein	Fibre	Ash
5.1	34	7.7	14

Vitamin A – 40,000 iu/kg, Vitamin D3 – 10,000 iu/kg, Vitamin E – 200 iu/kg
Calcium 3.7% Magnesium 0.3% Copper 120 mg/kg Selenium 1.25 mg/kg

Raw Materials (in descending order)

Double Low Rapemeal (Extracted), Distillers Dark Grains (Barley), Malt Residuals, Distillers Dark Grains (Maize), Extracted Toasted Soya (Hi Pro), Calcium Carbonate, Molasses, Urea, Sodium Chloride, Trace Elements & Vitamins

All our feeds use only quality, properly researched, ingredients at meaningful levels. ECV Beef 34% Concentrate can be fed to all cattle. An ideal balancer for home produced barley. Feed 4 parts barley to 1 part of Concentrate to give a balanced feed around 15% protein.

Qualities of Feed

High Energy (low fibre, low ash)	➔	• Target maximum economic live weight gain
Contains 3% Urea		• Improves digestion of straw and other low quality forages.
Full levels of minerals/vitamins/ and trace elements	➔	• Assists herd health • Boosts vigour • Ensures optimum live weight gain
Only one product to buy & store	➔	• Convenient to use

Containing GM2 soya, produced from genetically modified soya

ECV Animal Nutrition's Beef 34% Concentrate + Urea contains only the best ingredients, including a top quality trace element package. The urea improves digestion of straw and other low quality forages.
